For a husband to ask his wife

How can I be a better husband?

What do you admire and respect about me? Why?

What is the best way to encourage you?

What is something I can do this week to make your days a little easier?

What are three positive changes that our marriage has had on you?

What is your favourite romantic gesture?

What is the worst pickup line you have ever heard?

If our house was on fire and you can only grab three things, what would they be? Why?

If you could spend 24 hours doing anything in the world together, what would it be?

For a *wife* to ask her husband

How can I be a better wife?

What is your greatest need right now as a husband? How can I provide it for you?

When do you feel most appreciated by me?

What fears do you struggle with the most? How can I help?

Do you feel we communicate openly in our relationship? If not, how can we improve?

If you could go back to when we first started dating, what advice would you give yourself? Why?

What is one thing that you refuse to share, even with me?

Out of all the dates we've gone on, which was your favourite? Why?

If we could teleport anywhere in the world right now, where would it be?
